DESCRIPTION AND PURPOSE OF ITEM

This item identifies one to three unique Marked Routes for intersecting highways.

This information is used to locate data along an inventoried highway relative to an identifiable Marked Route.

This item is computer generated from the Marked Route (Item 39) of intersecting highways. If in question, contact the district Bureau of Program Development.

CODE AND SCREEN ENTRY INSTRUCTIONS

A 15-digit alphanumeric field.

Do Not Code

This item is computer generated.

Note: There is no horizontal correlation of Street Name, Key Route and Marked Route.

- Street Names are sorted alphabetically and then the first three are selected.
- Key Routes are sorted hierarchically and then the first three are selected.
- Marked Routes are sorted hierarchically, including all concurrent routes, and then the first three are selected.
